What have Piano Lessons to do with the Battle of Clontarf?

They help your child remember when it happened. Piano lessons are an invaluable exercise in the fundamental principles of learning. They teach the child to concentrate, analyse and memorise. So such unrelated subjects as history, mathematics and languages all benefit from this mental discipline. But for best results the child should enjoy his music. And he will — if he has a neat modern, "friendly" piano on which to practise, A Lindner, for example. At £185 (or on easy terms) Lindner offer to-day's best piano value. And the largest selection of Lindner pianos in Ireland is at

We've got connections ... right down the line

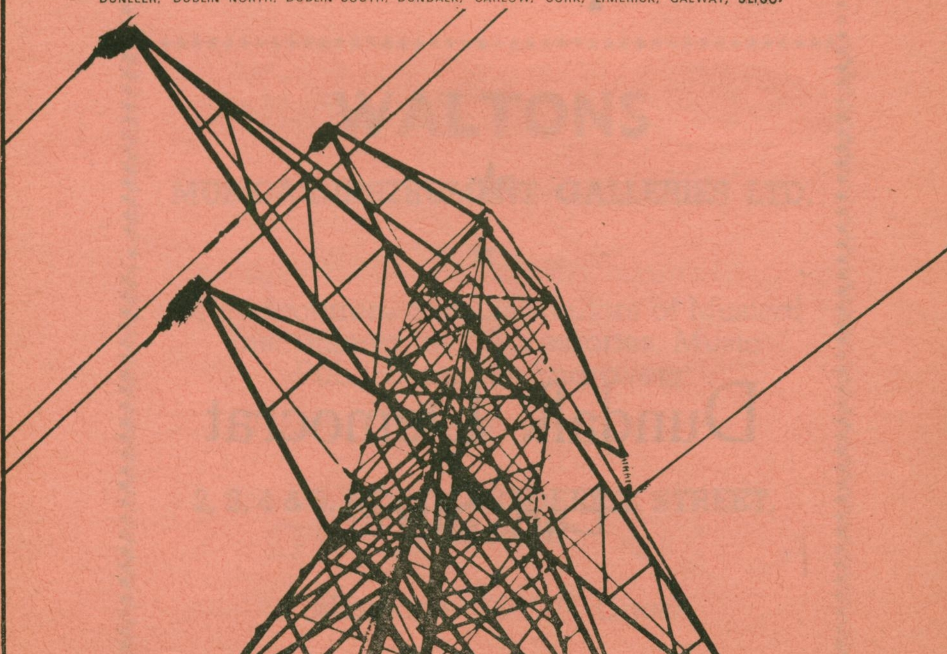

Wherever electricity is wanted that's where our connections belong. GEC are involved right down the high tension line to industry and home appliances. At airports too you'll find our products in use—things like communications equipment and airport and runway lighting. Our highly qualified design and development engineers create electrical products which are in demand on the home and export markets.

If it's power you're looking for or anything to do with electricity, contact the group with connections.

Package Deal

save pounds with Aer Lingus group travel

Here's a deal with a great deal to offer to people who travel in groups: Aer Lingus gives a special fare reduction of 5% for parties of 10, and 10% for parties of 15 and over, on all British and Continental routes. In addition, groups of 15 or more flying to the U.S. and Canada can save large amounts on the normal return fares. So get together. Then go visit your travel agent or Aer Lingus office. And make a deal.

★

FAR AWAY PLACES WITH STRANGE SOUNDING NAMES . . .

How often during the past dreary months have you longed to pack your case and fly off to some far away place where the sun shines down from a cloudless blue sky.

Don't dream any longer — make it a reality.

Get in touch with . . .

JOE WALSH TOURS
LTD.

16, Nassau Street
DUBLIN

'Phone 65918

and they will arrange it all for you.

Why not fly to Italy, the cradle of music and song, or perhaps to Rumania, and hear again the wonderful voices that are thrilling you at this concert tonight.

Maybe you are one of the more adventurous ones who would rather travel further afield —then take a fascinating trip to the Holy Land and the glorious Greek islands like some fortunate Dundalk people did last year.
Or to Turkey . . .
Or maybe Morocco . . . .

TO-MORROW

they'll be working for you

Right now there are almost 1,000 E.S.B. personnel undergoing special training—to make certain that the E.S.B. can meet your needs to-morrow — and in the years ahead. It's part of the E.S.B.'s policy to ensure that all have the opportunity to develop with this vital industry and to progress in their chosen professions.

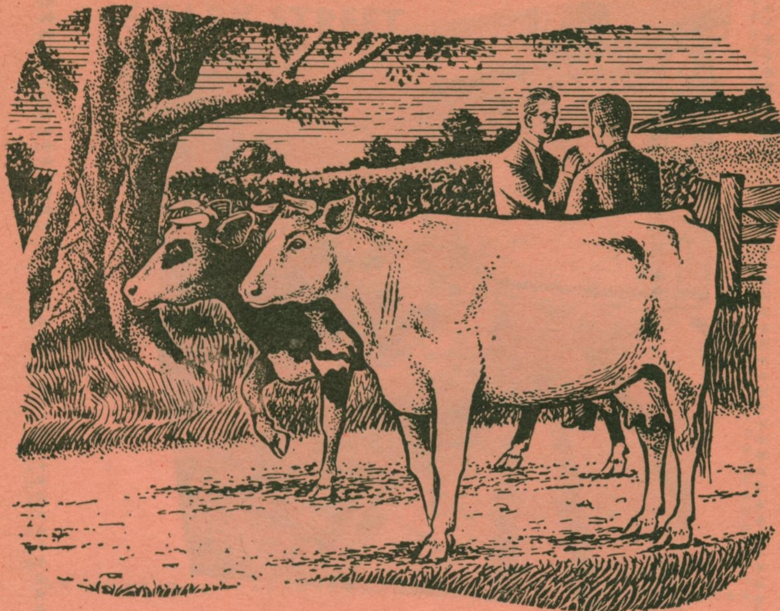

As your use of electricity becomes greater, the E.S.B. must plan ahead to have the men and the machines geared to meet your needs.

This is just one aspect of the 'forward look' which the E.S.B. must maintain as its contribution to the community to which it belongs and serves..

ESB

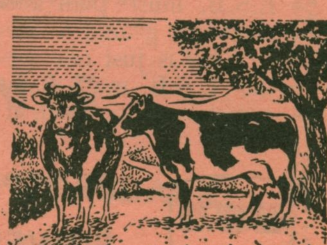

PROSPERITY FOR PEOPLE
POWER FOR PEOPLE —

next time you see cows on the road remember the BÓ in BOTAR really means COW

BÓ in BOTAR—We all know that 'bothar' is the Irish word in most common use to-day to designate a road. The bothar was the third of some seven different types of roads in ancient Ireland which were classified according to size and use. The width of the bothar was specified. Two cows had to fit on it—one lengthwise and one athwart. So next time you meet cows on the road as you motor through Ireland remember . . . they gave the road its Irish name!

Slige was the word used to describe the first of the seven types of ancient Irish roads. The slige was, in fact, the main road. Five such roads radiated from the hill of Tara, seat of the High King of Ireland. The slige will be the subject of our next presentation.

We have over 150 years of Business Experience behind us.

Our story is that of an Irish family business which from small beginnings grew into a great and thriving commercial enterprise. Today in the various McGee Group of Companies, over 200 people are employed. Our activities range from the supplying of seeds, farm machinery, heavy industrial and contracting equipment, timber and building supplies to the assembly and distribution of cars and commercial vehicles. We thank our numerous customers and friends everywhere who have helped further our progress, and we look forward to serving them in the years aead.

SAVINGS/LOAN

how to save easily / and be sure of a loan

‘We’re getting to know a lot of new people at the Bank! Through our Savings/Loan scheme. It makes saving easier—helps you save a fixed amount regularly, even as little as £1 per week. It’s different from any other savings scheme—because at the end of the savings period there’s a loan for you. If you want it! Savings/Loan is available only from the Bank of Ireland Group. Call in and we’ll give you the details!’
